❖ **Date** (then day before your egg retrieval): _____ / _____ / _____
dd mm yyyy

- No injections to do at this day.
- Do not eat or drink after midnight, because it is important that your stomach is empty at the time of the procedure.

❖ **Date** (the day of egg retrieval): _____ / _____ / _____ Time: _____
dd mm yyyy

- Plan to arrive at the clinic one hour before your scheduled retrieval time.
- Do not eat or drink anything including water. Your stomach has to be empty for the procedure.
- Because of the medications that you are required to take, you may not drive on the day your egg retrieval. A person must escort you to and from the clinic.
- Your partner will be asked to provide his semen specimen upon arrival.
- Do not apply makeup, nail polish, perfume or product in your hair.
- You should start your medicines (Doxycline, Endometrin, Estrace) as indicated by your doctor.
- Please empty your bladder just before going into the operating room.
